

From the Folio Secretary

For the 2010- season the folios coded PD and QD will be known as '**Nature and Illustrative**' as this better describes their contents than the title Documentary.

The latest provisional rotas for the 2010 season are now available as *pdf* files from the downloads section of the LCPU website. Please check and let me know if there are any dates on which you do not require a folio or if there are any changes to dates that are not recorded there – as these will form the basis of the rotas included with the folios.

Clubs that do not take the folio boxes will automatically receive a CD containing digital versions of the folios.
